DISPLAY FIXINGS : LIGHTING

2006

First Choice
for Window and
Interior Displays

1.5mm cable components

CF04 | Floor to Ceiling Cable Kit

4m cable with ceiling and floor fixings *(plus screws and wall plugs)*

CW04 | Wall to Wall Cable Kit

4m cable, with ceiling & floor fixings *(plus screws and wall plugs)*

CCK | Conversion Kit

2 elbows to convert a CF04 into a CW04.

No need for your installer to leave site because he has wrong kit, make sure he carries these and he will finish the job every time! For 1.5mm and 3mm cables

CC01 | Small Clamp
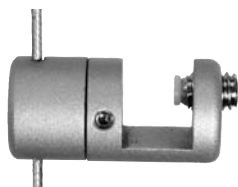

Holds panels up to 4mm in thickness.

CC02 | Large Clamp

Holds panels up to 8mm in thickness

CC03 | Shelf Clamp

Holds a glass or acrylic shelf up to 8mm in thickness

CC04 | Wooden Shelf Support

For fixing into a wooden shelf or vertical wooden panel

CC05 | Glass Shelf Support

Supports a drilled and slotted glass shelf (p16)

CC06 | Panel Clamp

Holds the edge of a panel up to 9mm thickness. *(rotates through 360°)*

CC07 | Panel Support

Supports a 2 – 7mm panel through a 5mm hole
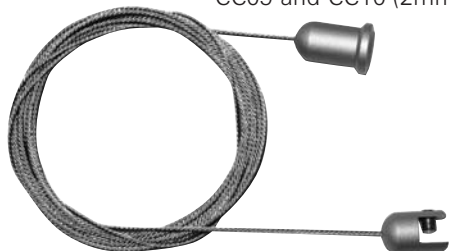

Display Fixings & Lighting
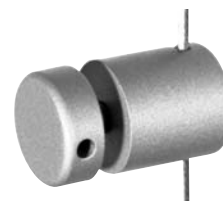

CC08   Rod Support

Supports a 6mm rod
mounted horizontally
on a cable
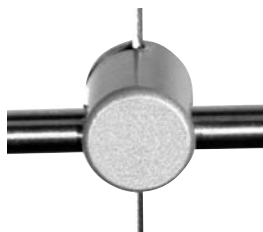

CC11   Sign Suspension Kit

CC09 and CC10 (2mm cable)

CC13   Double Sided Large Clamp

Holds a panel up to
8mm thickness

CC09   Ceiling fixing

With 2m cable

CC10   Vertical Jaw
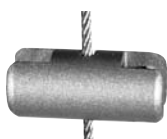

Suspends a panel up to
8mm in thickness in a
vertical position

CC12   Double Sided Small Clamp

Holds panels up to 4mm in
thickness

CC14   Double Sided Shelf Clamp

Holds a glass or
acrylic shelf up to
8mm in thickness

CC17   Multi Position Clamp

Holds a panel or shelf
up to 10mm in thickness.

Rotates through 360°

wall to wall shelving

A double cable kit to support shelves.
Choose from Wall to Wall (WW), Wall to
Floor (WF) or Wall to Ceiling (WC)
with wide shelves at 360mm or
narrow at 180mm

All cable kits supplied with 4 metre cables.

Additional pockets available, see page 14. Remember to include clamps for any addtional pockets.

1 pocket kit   2 pocket kit   3 pocket kit   4 pocket kit

These are only examples of some of the kits available, please call to discuss other options.

Display Fixings & Lighting
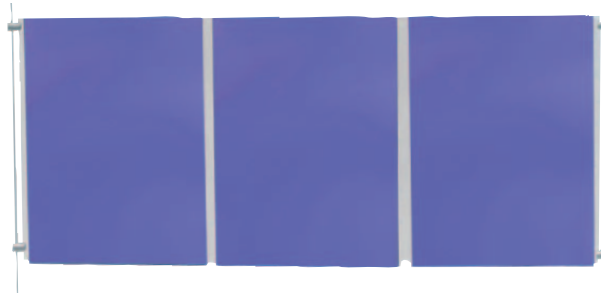

double and triple pocket kits

If you are looking to get displays on a tight budget, double and triple pockets are the answer. By using double and triple pockets you use less components, reducing the cost of your display.

Double A4 Pocket Kit	
3 high	K3DA4P
4 high	K4DA4P

| Triple A4 Pocket Kit	
3 high	K3TA4P
4 high	K4TA4P

Additional pockets are available on page 14

hook on A4 pocket kits for windows & interiors

Ideal for the Estate Agents windows. Pockets can be removed or exchanged with other hook on displays in the office.

K12HPA4P	12 pocket kit
K16HPA4P	16 pocket kit

wall mounted A4 pocket kits

mounted straight onto the wall, for easy installation.

WK4HPA4P	4 x A4 pockets
WK6HPA4P	6 x A4 pockets

additional kits in landscape available

MILLER EVANS

6mm rods an alternative to 1·5mm and 3·0mm cables

1500R — 1500mm Rod

6mm stainless steel rod, threaded at both ends enabling rods to be joined together.

1000RP — 1000mm Rod

6mm Stainless steel rod with plain ends, use this rod for wall displays either vertically or horizontally.

500R — 500mm Rod

6mm stainless steel rod, threaded at one end only.

RTB — Top and Bottom Fixing Kit

Used to fit a rod system vertically, comes complete with screws and plugs.

WSR — Wall Support

Used to fix a 6mm rod to the wall at any angle.

RC02 — Large Clamp

Holds panels up to 8mm in thickness

RC03 — Shelf Clamp

Holds a glass or acrylic shelf up to 8mm in thickness

RC04 — Wooden Shelf Support
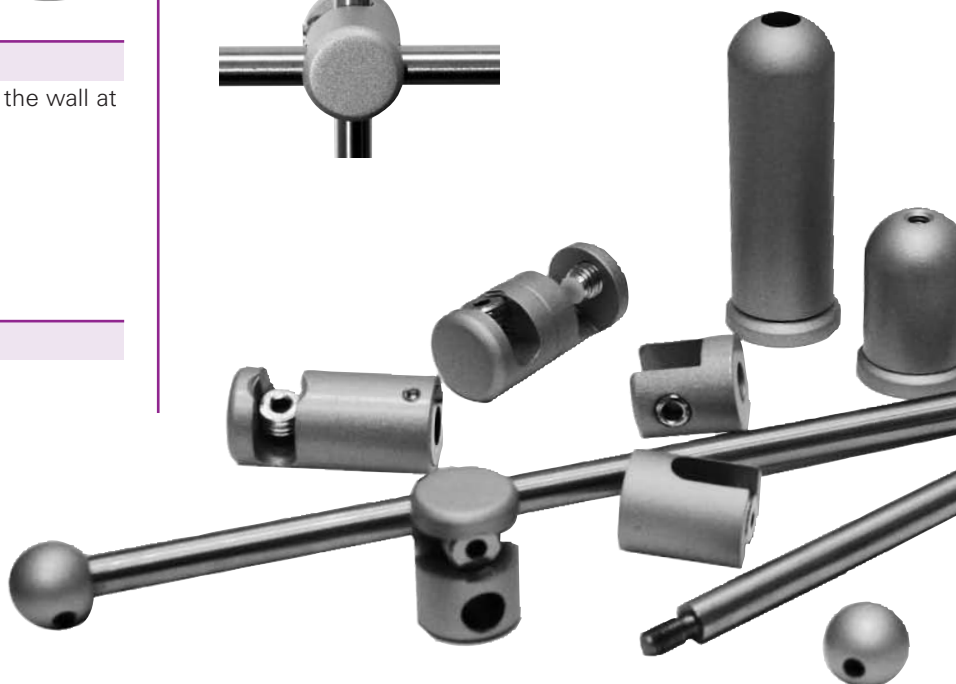

For fixing into a wooden shelf or a vertical wooden panel

RC06 — Panel Clamp

Holds the edge of a panel up to 9mm in thickness

RC07 — Panel Support

Supports a panel 2–7 mm in thickness through a 5mm hole

RC08 — Rod Support

Supports a 6mm rod mounted horizontally on a vertical rod.

Display Fixings & Lighting

RC09 — Ceiling Fixing

To suspend a 6mm rod from the ceiling.
(Only use 1500R or 500R)
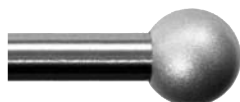

RC10 — Vertical Jaw

Used at the end of a rod, fitted to an RC09.

Holds panels up to 8mm in thickness

RC11 — End Cap

Decorative end cap for a 6mm rod.

6mm cable

Looking for something a little different.
The 6mm cable is a beauty.
Choose from any of the 6mm rod
components to use with this cable.

CF04-6 — 6mm cable (4m)

RC13 — Double Sided Large Clamp

Holds panels up to 8mm in thickness

RC14 — Double Sided Shelf Clamp

Holds glass or acrylic shelves up to 8mm in thickness

RC17 — Multi Position Clamp

Holds a panel or shelf up to 10mm in thickness.
Rotates through 360°

3mm rod

Suspended from the ceiling only. As the displays are not fixed to the floor, a special top fixing allows you to pull the displays away from the window or wall to clean the glass. The 3mm rod is 2 metres long and can be shortened on site.

CR09 — Ceiling Fixing & Rod

Ceiling fixing with 2000mm rod, ceiling fixing is complete with

CR01 — Small Single Clamp

up to 4mm panel

CR12 — Small Double Clamp

up to 4mm panel

CC02-3 — Large Single Clamp

up to 8mm panel

CC13-3 — Large Double Clamp

up to 8mm panel

FS1A1

1 x A1 pocket

FS6A4

6 x A4 pockets

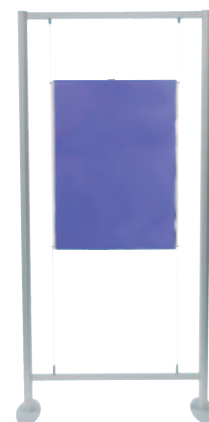

FS3DA4

3 x double A4 pockets

This is One of our biggest sellers. More and more people are deciding not to fix cables to the floor or ceiling, instead choosing to use a Free Standing Display.
Supplied in an attractive satin anodised aluminium, the frames are robust and sturdy. Delivered flat pack, with full installation instructions, it couldn't be easier. Choose from pockets or shelves from A1 to A4. The standard frames shown here are all in stock for next day delivery. Landscape kits are also available. If you have a requirement for other sizes, just let us know. Making a special size may not cost you any more, but may well just suit your needs a little better.

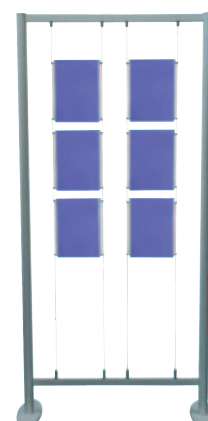

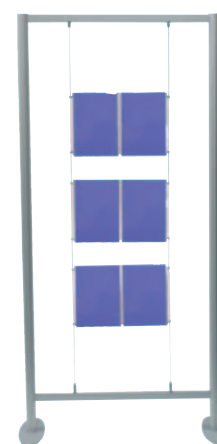

Display Fixings & Lighting

banner rail

Hang your banners from cables with these banner rails, passing through a fold at each end of the banner. The rail is 25mm dia aluminium tube with endcaps which allow you to use the entire length of the rail.

BR900
900mm banner rail

BR1200
1200mm banner rail

BR1500
1500mm banner rail

acrylic cubes

Rather than using a shelf, add a cube to your window. Having products in a cube improves the appearance and value of the product. The standard cube is 300mm deep, 300mm wide and 300mm high

Why not add lighting to the cube to maximise the effect.
If lighting is to be added to the display, the cube will be supplied with a hole in the top.

Cube is attached to cables with 8 x CC07's.

Acrylic Cubes have satin sides, top and bottom and clear front and back.

AC300300
Acrylic cube

AC300300L
Acrylic cube for light

AC300300LK

Cable and supports not included

accessories

CH01 — Square Channel

2 metre length, rebate into timber or fix to the floor or ceiling

CH02 — Curved Channel

2 metre length, fix to the floor, ceiling or wall

CH03 — Toggle

Connect cables or rods to the channels above. (Use 2 for each cable or rod)

CH04 — Square Toggle

Connect cables or rods to the channels above. (Use 2 for each cable or rod. Also used for connecting sign supports to free standing frames)

CH05 — Cable Isolator Kit

Isolated top and bottom fixings for 1.5mm & 3.mm cables. Use when lights are fitted.

RH05 — Rod Isolator Kit

Isolated top and bottom fixings for 6mm rod and 6mm cables. For use with lights.

CH06 — Quick fit Toggle

Quick fit toggle for 1.5mm and 3mm cables.

Speed up the installation and make adjustment easy with this fitting

CH07 — Isolated Quick fit Toggle

Isolated Quick fit toggle for 1.5mm and 3mm cables.

Use when lights are fitted

WMD — Wall Mounted Disc

Wall mounted disc in silver for mounting cables or wall supports onto soft walls. Add a WMD if you feel the support cable may dent the plaster

CC15 — Transformer Connector

Transformer connector for 1.5mm cables.

CC15-3 — Transformer Connector

Transformer connector for 3mm cables and 3mm rods.

RC15 — Transformer connector

Transformer connector for 6mm rods.

CC16 — Weight

Weight for hanging on a 1.5mm cable and 3mm rod, when you don't want to fix to the floor.

Hex Drivers

Use instead of the Allen keys provided. These are much easier to handle and speeds up installation if you have a lot of Allen screws to tighten.

Hex15	1.5mm Hex Driver
Hex20	2.0mm Hex Driver
Hex25	2.5mm Hex Driver
Hex30	3.0mm Hex Driver
Hexset	set of 4 Hex Drivers

CWF — Cavity Wall Fixing

Use on plasterboard walls or ceilings.
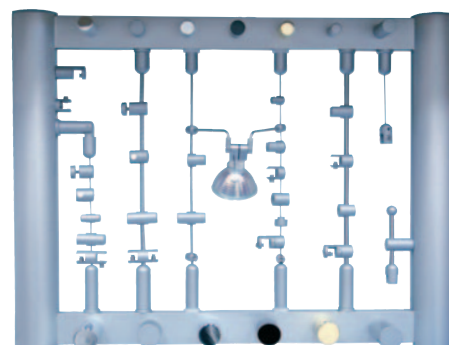

CWFT — Cavity Wall Fixing Tool

Make installing the cavity wall fixings easy with this tool.

MWSF — Sample Frame

When its important for your client to see the products, take one of our sample frames with you.

These can be custom made to suit the products you use. Ask for our special deals on your first frame.

Ezee track

Ezee Track - A multi functional track system for Retail and Gallery displays.
Ezee Track is more than just a shelving system, the slotted uprights are also a lighting track, allowing you to connect lights or shelves into over 50 different positions on each 2 metre track.

EZK1	3 x 180mm shelves and 6 lights

EZK2	2 x 360mm shelves and 4 lights

Display Fixings & Lighting

EZTK	Slotted Track

Slotted track, 2000mm with transformer, power connection and wall fixings

EZS180	Narrow Shelf & Brackets

Narrow toughened glass shelf with 2 shelf brackets, shelf size 618 x 180

EZS360	Deep Shelf & Brackets

Deeper toughened glass shelf with 2 shelf brackets and cable supports, shelf size 618 x 360

Gallery Display

EZL1	

Small clip in lights with 20w MR11 lamp. Satin finish.

EZL2	

Small clip in lights with 20w MR11 lamp. Polished chrome finish.

rotating displays

Movement attracts, simple as that! Therefore by adding a rotating display, you are not only increasing the attractiveness of your window, you are doubling the number of properties to view.
Controls on the unit allow you to choose the time the panels are on view and how quickly the panels turn. A sensor will detect if an object blocks the unit, and a warning light will flash. The machine can be reset in an instant and continue attracting customers to your window. Oversized A3 pockets allow you to use A3 landscape or A4 portrait details in the same panel.

Also available as a freestanding unit.

Lights come as standard on all units.

guarantee…

Our guarantee to you is a simple one.
We are so confident that the products we supply are going to last, we will put our money where our mouth is.

Cable and Rod components	**Lifetime guarantee.**
Sign Supports	**Lifetime guarantee.**
All other items	**12-month guarantee.**
